##### **Stance & Balance**

All stances must be correct and clearly recognisable. There is good balance throughout the pattern, with the correct centre of gravity maintained particularly on landing after a technique or change in direction.

##### **Technique**

Correct techniques according to defined standards are observed at all times including transition phase of the technique executed with sufficient power. Full completion of technique before moving on to the next technique.

##### **Accuracy**

Correct techniques according to defined standards are delivered to intended target using the correct blocking or striking parts to a virtual opponent of similar height to candidate.

##### **Fluency of movement**

Smooth movement between techniques visible with no perceptible pauses between combination techniques except where defined in the Poomsae culminating in appropriate finish to technique.

##### **Speed & Power**

Preparation phases performed slowly/relaxed, action phase performed with acceleration and using the waist to generate power, correct timing between hand and foot finishing.

##### **Concentration & Spirit**

Eyes to be focused towards the direction of the technique, or to the target area if kicking above the head. Shout performed loudly and from the diaphragm during the required movement and at the finish split-second of the movement.

### STEP SPARRING

The same technique must be defended from both left and right hand attacks (and either from a Junbi or low block attacking stance).

#### Candidates will be assessed against the following criteria:

##### **Posture & Breathing**

Controlled breathing, not held during defences, and not audible. Candidates must exhale when in action phase.

##### **Stance & Balance**

Stances used are realistic, the candidate should have balance to enable defence and attack maintaining the centre of gravity accordingly.

##### **Technique**

Techniques should be practical and effective in providing a defence and attack with appropriate distance from the opponent.

##### **Accuracy**

Attacking candidates must control the attack to face with intent to strike putting defender under pressure. Defending candidates must safely block, parry, or evade the attack with an immediate and controlled counter attack. Blocks, strikes and kicks are clearly aimed towards intended target.

##### **Fluency of movement**

Candidates should demonstrate clear flow of movement between defence and attack without gap using techniques that easily flow from one to another.

##### **Control over the opponent**

Candidates demonstrate reaction to immediate threat with controlled application of takedowns or submissions.

### SELF DEFENCE

- Opponents can attack:
- From the front or rear
  - With grab to wrist or wrists
  - With grab to collar

#### MINIMUM TESTING REQUIREMENT

#### **DEFENCE AGAINST ATTACKS x 6**

Candidates will be asked to perform a minimum of 6 x escapes and counter-attacks against an opponent. Defending candidates must perform a range of defensive strategies with:

- At least one featuring a wrist lock
- At least one featuring a pressure point
- At least two featuring the restraining and pacification of an opponent

#### Candidates will be assessed against the following criteria:

##### **Posture & Breathing**

Controlled breathing, not held during defences, and not audible. Candidates must exhale when in action phase.

##### **Reaction speed**

Candidate demonstrates correctly timed body and or blocking movement to stop the attack with minimal delay between the defence and counter attack.

##### **Technique**

Techniques should be practical and effective in providing a defence and attack with appropriate distance from the opponent.

##### **Accuracy**

Attacking candidates must control the attack with intent, putting defender under pressure. Defending candidates must safely block, parry, or evade the attack with an immediate and controlled counterattack. Blocks, strikes and kicks are clearly aimed towards intended target.

##### **Fluency of movement**

Candidates should demonstrate clear flow of movement between defence and attack without gap using techniques that easily flow from one to another.

##### **Control over the opponent**

Candidates demonstrate reaction to immediate threat with controlled application of takedowns or submissions.

##### **Effectiveness**

Candidate demonstrates an effective defensive technique followed by a strike or restraint that would incapacitate the aggressor with self-control to avoid injury.
